

AMGEN LABORATORIES SECURITY ALERT

ATTN: Data Analysts, Scientists, and Grammar Experts

ALERT LEVEL: **URGENT**

The AmGen mainframe has been hit by a digital virus, and our final safety protocols are glitching! We need a specialist to patch these corrupted sentences immediately. If the punctuation and spelling aren't fixed, the containment doors will unlock.

Your Mission: Rewrite each sentence next to the original sentence, using correct capitalization, punctuation, and spelling.

CORRUPTED DATA LOG:

CLEANED DATA LOG:

the subjects esc aped from there glass containment rooms	
dr aris tried to warn the team	
the sc ientist locked the lab doors	
the vir us spread quickly nobody noticed	
without w arning the thin green vapor began to leak	
the doctors not ebook was found near the exit	

Write down the **bold** letters in the corrupted data to see the system status: _____

You've successfully patched the digital virus and kept the facility locked down! But Dr. Aris is still missing, and the zombie outbreak has only just begun...

SECURITY ALERT: ANSWER KEY

Grades 4–6 | No Prep | Print & Go

CORRUPTED DATA LOG:
